MARYVILLE GIVEN BOUQUETS.

Kansas Crowd Lavish in Praise of the City.

When a bunch of Kansas friends came to Maryville last Saturday to assist Mr. H. L. Haines in the opening of the new Main street store they became acquainted for the first time with Maryville and her folks, and the Sabetha (Kan.) Herald of June 11 has the following to say of the Sabetha crowd's opinion of us:

Mr. and Mrs. Charlie Haines and Misses Marie Whitehead and Ruth Pittman drove to Maryville, Mo., Friday in the Haines car. They went over to assist Harve Haines in opening his new store in that town. Sunday they all came back more than enthusiastic over Maryville and the Haines store in that place. Maryville is a city of 6,500 people, in a very wealthy community. It is a modern city in every respect and is peopled with a most friendly and enterprising class of citizens. Harve Haines hunted all over Missouri, Iowa, Kansas and Nebraska for a location and Maryville appealed to him as no other town has.

700 SEE COBURN PLAYERS.

Their Performances at North Dakota Normal Drew Large Crowds and Won Much Praise.

The Coburn Players, who will give three performances in the outdoor theater at the Normal Monday and Tuesday, June 15 and 16, played at the North Dakota normal, at Valley City, the early part of this month. The Valley City Evening Times gives the following criticism of their performance of Shakespeare's "Merchant of Venice," the play which the Coburns will give here Monday evening, June 15:

For fully two hours an audience of some 700 persons last night sat in the sylvan theater on the normal school campus under cover of the stars and in the moonlight witnessed a most excellent performance of Shakespeare's "Merchant of Venice" by the Coburn Players. Three powerful calcium lights emphasized the features of the players amongst the shrubbery on the large stage and left the audience in the shadow to wander from Venice to Belmont and chuckle incessantly at the fine humor that penetrated the entire performance. Throughout the performance the audience sat as if spellbound studying each scene as it was unfolded rapidly, yet effectively.

The whole story of Shakespeare's comedy was last night refreshed by this company of finished actors. True to their own statement, there is no star among them brighter than the others, for in fact they are all stars.

That the coming of the Coburn Players marks one of the finest events from an educational standpoint as well as from that of entertainment that has come to Valley City in a long time is the consensus of opinion of everyone who has seen their performances.

BROTHERHOOD MEETING LAYED.

Men of Christian Church May Ball, Cook Their Own Supper and Make Interesting Talks.

The members of the Christian Church Brotherhood made a big event out of their weenie roast at the Normal park yesterday evening. Forty members went out at 6 o'clock and kept themselves busy at amusements and serious affairs until 9 o'clock.

The first scheduled event was a base ball game between Byron Frost's team and Edward Gray's team. George L. Wilfley made himself famous as an umpire, he would know no back talk from the players, and in the third inning benched the batteries. In the fifth inning he was overheard to remark that he would call everything a ball, so Gray, whose team was leading with a 9 to 4 score, called in his men and refused to play. The game was then forfeited to the other team, but later in the evening Captain Gray and his men persuaded the umpire to annul the forfeit and give them the game with the 9 to 4 score. The Frost team is still working to get the result changed once more.

After the ball game food was the next thought of the men. They built a fire, roasted weenies, broiled steaks on sharpened sticks, made coffee, and appeased their appetites.

The regular brotherhood meeting was then held. The Rev. Mr. Finch talked on "The Carpenter of Galilee," which speech was followed by comments from George L. Wilfley and Henry Westfall. Ellis G. Cook spoke next on the subject of "Sunday Base Ball and the Wednesday Half Holiday." His talk was commented on by J. D. Frank, W. W. Glass, George L. Wilfley and Z. R. Alexander.

A committee of which Mr. Wilfley is chairman was then appointed to look into the matter of the Wednesday half holiday.

At 9 o'clock they returned to town in cars.

DISTRICT ENDORSES BOOHER.

Candidacy of Congressman is Uncontested by Either Republicans or Democrats.

Well may Congressman Charles F. Booher of this district feel proud and gratified over the splendid endorsement given him by the Democrats of his district. It is such an endorsement that comes to few men in a Missouri district, and is therefore all the more appreciated and valued.

The last date for filing for the nomination for congress in this district was midnight, June 5th. No Democrat in the district filed against him and for that matter no Republican, although the committee may draft a candidate if it sees fit. The Progressives filed a candidate and so did the Prohibitionists.

So well has Congressman Booher served the people of the Fourth district—so well has he represented them—so successfully has he been—that the Democracy of the great counties of Atchison, Andrew, Buchanan, Holt, Nodaway and Platte, which comprise his district accorded him the distinguished honor of a return to his post of duty for the fifth time without a contest on his part.—St. Joseph Observer.

M. N. G. ENCAMPMENT IN JULY.

Adj. Gen. O'Meara Changes Former Decision Because of Harm to Organization.

Adj. Gen. O'Meara, after a consultation with Gen. Harvey Clark, commander of the National Guard of Missouri, has decided to hold the annual encampment despite the railroad companies' refusal to grant the decreased car fare. Not to hold the encampment would work more harm to the organization than the quarrel over the car fare is worth, he believes.

Unless something interferes the encampment will be held some time in July.

The initial game of the Normal school summer base ball league was played yesterday when the Grizzlies, captained by Dyer, defeated Captain Ham's Athletics by an 8-3 score.

Wednesday evening the Athletics will meet Captain Richards' Giants. No admission is charged at the gate and the public is invited to all of the games.

"Why Go to Church?"

1. To thank and worship God.
2. To honor and obey Jesus Christ. "This do in remembrance of me."
3. To obey Apostolic injunction "Forsaking not the assembling of yourselves together."
4. To follow early examples. "They continued steadily in the Apostles' teaching, in the fellowship in the breaking of bread and in prayers."
5. To help build up the church. By our moral support.
6. To show, by our example, to others our estimate of the church.
7. To maintain our interest in religion. Soon lost by non-attendance.
8. To feed our souls. "Man shall not live by bread alone." Many are starving their souls and don't know what is the matter.
9. To maintain an intelligent interest in the ongoing of the Kingdom of God.
10. To receive the best help in rich living.
11. To make the church a strong power for good in the community.
12. To be helpful and loyal to the pastor and uphold his hands.
13. To receive the blessings of communion with the highest things in the universe of God. Here is communion with God; with Jesus Christ and with the Holy Spirit—if we are in the spirit on the Lord's day. Here we give the sunshine of heaven a chance to shine into our souls. Here are truth, righteousness and the peace of God, I lose all these by staying away.
14. In the church is the best possible opportunity to help others.
15. The church is the bride of Jesus and any treatment extended the church He counts as extended to Him—no man can rightly love Jesus and neglect His church.
16. If you would have God for your father you must also have the church for your mother.—Exchange.

Getting Together.

Here is another sample of the way in which the g. o. p. and the b. m. are getting together:
"James Watson of Indiana came to Missouri the other day," says Henry Allen, "to attend the state convention of the Missouri Republicans. He 'opened the door' to all Progressives to come back into the Republican party and went away leaving it open. Mr. Watson also had charge of the door-keeping arrangement at Chicago. He's about the bummiest doorkeeper the Republican party ever had. While he had charge of the door at Chicago more than four million Republicans walked out of it."

Mrs. John Cook of Guilford spent the day Friday visiting friends in Maryville.

FIRST PROTOCOL IS SIGNED

Agreement as to Transfer of
Authority Reduced to Writing.

NO MENTION OF DICTATOR.

Omission of Reference to Method of
Succession Regarded as Victory For
American Diplomats—Naming of
Provisional President Is Next.

Niagara Falls, Ont., June 13.—The first protocol of the series through which it is hoped to restore peace in Mexico was signed by delegates from the United States and the Huerta government in the presence of the mediators.

The agreement reached in relation to the manner of transferring the executive power from Huerta to the new provisional government stood the acid test of reduction to writing. It provides that:

"A government is to be constituted in Mexico of a character to be later provided, which shall be recognized by the United States on (date to be fixed) and which from that day forward shall exercise public functions until there shall be inaugurated a constitutional president."

Significant of Two Things.
This plank in the peace plan was reduced to the form of a protocol after more than three weeks of discussion. In the last three days of which so serious a disagreement had arisen that the success of mediation was threatened. The brief protocol was significant of two things:

It makes no mention of General Huerta as the provisional president and it omits the methods of transfer which the Mexican delegates and mediators suggested and to which the United States objected on the ground that its retention would be tantamount to recognition of the existing regime. The Mexican plan provided that Huerta should name as minister of foreign affairs the man agreed upon here for provisional president.

United States In the Clear.
The omission of reference to the method of succession and the flat statement that on a certain date a provisional government shall arise in Mexico to which the United States will accord recognition satisfied the insistence of the American delegates that no steps should be taken that could be construed as a recognition of Huerta.

The Mexican delegates, while abandoning the constitutional form of succession as part of the protocol, are satisfied because it does not deny Huerta's right to name as minister of foreign affairs the man chosen here for provisional president. If the latter sees fit to accept designation from him. It is not considered probable, however, that the new provisional president, who is likely to be a Constitutionalist, would take the executive power directly from Huerta, but he might do so from some other individual whom Huerta might leave in authority.

Method Closed Incident.
The American delegates consider the method of transfer a closed incident. All parties are now concentrating on the second part of the peace plan, which relates to the naming of the provisional president, and possibly will include his cabinet of four. The protocol is the embodiment of that for which the United States has been striving for more than a year—elimination of Huerta.

Constitutionalists were not parties to the protocol, but there is nothing in it to which they are likely to object, and, if admitted to the conferences, they may still attach their signatures. The question of Constitutionalist representation, however, is still an open one. The mediators say they will not officially admit the Carranza delegates unless they agree to an armistice. It is not doubted that the American delegates may try to secure a hearing for the Constitutionalist and that some way may be found for them to participate in the peace parleys after they have arrived.

MAY STORM KEY TO CAPITAL

Rebels Eye Tierra Blanca; Would Cut Off Huerta's Escape.

Vera Cruz, June 13.—Incoming Mexicans report that rebels are planning an assault on Tierra Blanca, a small city between Cordoba and Puebla. It is poorly defended and will fall an easy prey.

If Tierra Blanca falls communication between Mexico City and the Isthmus of Tehuantepec with Puerto Mexico on the east and Salinas Cruz on the Pacific will be halted. These are the only routes by which President Huerta can reach the coast now without coming into the American lines or passing through a country dominated by the rebels.

Garrison Praises Army's Work.

West Point, N. Y., June 13.—Secretary Garrison, in referring to the Mexican situation in an address to the graduating class of the United States military academy, praised the conduct of the army at Vera Cruz.

Two Passengers Are Killed.

San Bernardino, Cal., June 13.—Two passengers were killed and seven injured, some of them probably fatally, when the eastbound California Limited of the Santa Fe struck the rear end of a freight train at Bagdad, Cal.

Misconduct In Office.

ASK IMPEACHMENT OF JUDGE DAYTON

Charges Presented In House by
Neely of West Virginia.

Washington, June 13.—Impeachment charges were presented in the house against Alston G. Dayton, United States district judge for the Northern district of West Virginia, and without objection were referred to the judiciary committee for investigation. Representative Neely of West Virginia presented the charges, accusing the jurist of "high crimes and misdemeanors." The case grows out of the labor troubles in West Virginia. One of the allegations is that Judge Dayton used his office to the advantage of the coal operators. Mr. Neely charged the jurist had "openly stated that he would not permit the United Mine Workers of America to exist within his court's jurisdiction."

MO. ERIOTING IN ITALY

Strikers Burn Wooden Bridge Across the Rubicon.

Rome, June 13.—Movements of a revolutionary character were reported throughout the four provinces of Bologna, Ferrara, Ravenna and Forlì, forming what is known as the Romagna.

Although a cessation of the general strike has been ordered by the labor organizations, the workmen of extreme views in these districts have refused to return to work. The government ordered a concentration of troops, especially in the towns of Forlì and Ravenna.

The only communication from Ravenna reports the death of the chief of police as a result of wounds received in the course of a demonstration.

Serious encounters between the strikers and troops are reported from Parma. The wooden bridge across the Rubicon, now known as the Pisciatello, was burned by strikers and railroad communication cut.

RESERVE BOARD PICKED

Thomas B. Jones, Personal Friend of Wilson, Slated For Governor.

Washington, June 13.—Thomas B. Jones, a Chicago lawyer, former member of the Princeton university trustees, and a personal friend of President Wilson, has practically been selected for governor of the federal reserve board. It was said unofficially that his nomination would go to the senate Monday. With the nomination of Mr. Jones, the names of Paul M. Warburg of New York, W. P. G. Harding of Birmingham, Ala.; A. C. Miller of San Francisco and E. C. Simmons of St. Louis, to be members of the board, are expected to go to the senate. Secretary McAdoo and Comptroller Williams of the currency bureau will be ex officio members.

Deafness Cannot Be Cured

Local applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BALLOON STRUCK BY LIGHTNING

Carrier Pigeon Reaches Portland With Message of Disaster.

BERRY IS SERIOUSLY INJURED

George Y. Morrison, Passenger in Million Population Club Bag, Signs Note Announcing Plight Caused by Storm. Where Descent Made Untold.

Portland, Ore., June 13.—A carrier pigeon arrived here with this message from the balloon Million Population Club:

"Balloon struck by lightning. Berry hurt. Come quick. MORRISON."

The message did not say where the balloon had descended to earth. The Berry referred to is Captain John Berry of St. Louis, who was piloting the balloon. George Y. Morrison, his passenger, signed the message.

Officials are absolutely at sea as to where to look for the wrecked balloon and its injured pilot. It is presumed the balloon came down somewhere in the craggy Cascade mountains, probably many miles from a habitation. Lack of information regarding the whereabouts of the Kansas City III and Springfield, which left Portland in a race under the auspices of the Aero Club of America, has caused some apprehension for their safety. The fact that the Uncle Sam was driven to earth in a storm, which wrecked it and endangered the lives of its two occupants, led to a fear that the others may have met with disasters.

TURKS ATTACK AIVALIK

Massacre of Greek Inhabitants Is Feared.

London, June 13.—An official dispatch from Hilyene, an island off the coast of Asia Minor, says that Turkish regulars with machine guns and a force of Bashi-Bazouks commenced an attack on the town of Aivalik, on the coast of the mainland. As the town is inhabited by 25,000 Greeks, a massacre is feared.

The threat of another Greco-Turkish war did not come as a surprise to diplomats here. It was pointed out that events in the near east during recent months had been kindling the strongest animosities between the two peoples.

Greece accuses Turkey of the wholesale expulsion, with great cruelties, of Greek Christians from the province of Thrace, while Turkey accuses Greece of oppressing former Turkish subjects in the region of Saloniki, which was taken by the Greeks in the recent Balkan war.

A conference between the Russian and Roumanian ministers has been planned to take place at Bucharest, Roumania, next week to endeavor to prevent the breaking out of war.

REPEAL BILL UP WILSON

Only His Signature Necessary Now to Rescind Exemption Clause.

Washington, June 13.—Only President Wilson's signature is necessary to repeal the clause of the Panama canal act exempting American coastwise shipping from tolls.

The long and bitter fight in congress ended when the house, after brief debate and without the formality of a conference, accepted by a vote of 216 to 71 the senate amendment specifically reserving all rights of the Hay-Pauncefote treaty or otherwise.

The president is expected to sign the measure Monday. It was just a little more than three months ago that he addressed the house and senate in joint session, urgently asking for the repeal of the exemption clause that the nation might keep its treaty obligations.

Wife Breaks Neck, Spouse Fatally Hurt
Lincoln, June 13.—While Mrs. Ralph T. Eland, wife of a salesman, was working in the basement of their home she slipped on the wet floor, fell and broke her neck, dying almost instantly. Neighbors found her and summoned her husband. He hurried to the basement, took hold of an electric light cord, with faulty insulation, and received a shock that doctors at the hospital to which he was taken say will result fatally.

SUFFRAGE ISSUE IS UP TO CLUBWOMEN

Federation Convention Likely to Vote on Question.

Chicago, June 13.—The General Federation of Women's clubs may vote today on the suffrage question.

There is little opposition to the adoption of a resolution approving the principle of equal suffrage, but the fight will come when an effort is made to have the federation adopt a resolution making the fight to obtain the ballot for women a part of the federation's propaganda.

The subject has hitherto died in committee because the constitution of the federation declares the subjects of religion and politics to be taboo. In the conferences of this convention, however, the great strides made by suffragists in recent years were recognized and it was agreed that enlightenment on the subject might come properly under the heading of education.

It is believed the resolutions committee will report in favor merely of the principle of equal suffrage and this, it is said, will throw the fight on to the floor, as there is a determined faction seeking to enlist the organization in an active campaign for the ballot.

Climbing Roses Beautify Grounds
Climbing roses are a valuable aid to the man who is interested in having his home in attractive surroundings. With a fine lawn, artistically massed shrubbery, and a wealth of vines clambering over the porch and roof, many a plain and unpretentious house has been transformed into a most attractive dwelling place. The U. S. department of Agriculture has a rose garden on its grounds and many experiments have been made in the treatment of the various kinds to secure the best results.

After the blooming season of climbing roses is over in June, the Department's landscape gardener advises that shoots should be pruned so as to throw the growth of the plant into the new wood that bore no flowers this year, for this is the part of the plant that will bear next year. When a trellis is low, 6 or 8 feet high, it is a good plan to cut off the shoots that have borne flowers this year clear to the ground.

Most people in following this advice may feel that they are ruining their bushes to cut them back so severely, but the young shoots that have started about the roots will surprise them by springing up with wonderful rapidity. Each bush will probably put forth several new shoots that will grow as long as those cut or one shoot will grow much longer. One shoot in a Washington garden last year grew 20 feet after the bush had been cut down in this manner.

In the case of a high trellis a different method must be followed. The renewal of wood must begin from a point higher up instead of from the root as the growth of a bush is not

enough to replace all its top on a high trellis if required to grow so far. Only so much of the old wood should be removed after the flowers have bloomed as will enable the new shoots from the end of the remaining portion of the stalk to replace the old growth. About 4 feet is a safe measure of the amount that may be taken off.

Those who have grown climbing roses as a screen on their porches, in

order to insure a fine bloom the coming year, will do well to follow the advice as given for the higher trellis. In other words, about four feet of the old stalks that have bloomed should be cut off immediately after the blossoms are withered. The foliage will recover within a very short period and continue to screen the porch and next year an abundant crop of blossoms will be assured.

DEBATE SOCIALISM

J. A. BEDE AND EMIL SEIDEL TO DISCUSS QUESTION.

PROMINENT OPPONENTS

Former Minnesota Congressman and Milwaukee's Socialist Mayor Continually Add New Points.

The Bede-Seidel debate on the question, "Is Socialism Desirable for the United States?" which has been secured to furnish an afternoon's entertainment at the Nodaway County Chautauqua, is one of the best numbers appearing on the Chautauqua platform today.

J. Adam Bede, ex-congressman from Minnesota, and Emil Seidel, recently socialist mayor of Milwaukee, cannot be excelled, from the fact that their debate is seldom given twice alike.

Each day each debater is looking for new points or argument, and consequently something new is given at every appearance. Often the debate waxes warm, for each man is a staunch and life-long supporter of the beliefs which he expounds.

J. Adam Bede is one of the best speakers on the platform today. During the time that he occupied a seat in our national legislative halls he was known as "the humorist of the house," so witty were his sayings and so excellent his humor. Often in the midst of the ordinary work of congress, when there were many empty seats and a general listlessness, Bede would rise to speak. Immediately the empty seats would fill and the feeling turn to one of intense interest. In presidential campaigns Bede has made speaking tour on which he has been given the biggest city dates by the Republican national committee.

Emil Seidel acquired his earnestness and conscientious spirit at the pattern maker's bench. He was born in Pennsylvania, but left with his parents for Milwaukee when 5 years old. At the age of 22 he went abroad to perfect himself in his trade of carving and designing. For six years he lived in Berlin, working by day and attending trade school at night. In 1884 he helped to organize the wood carvers. He later joined the Milwaukee Association of Pattern Makers. In 1892 his ballot was one of a total of two socialist votes in his precinct. In 1910 he was elected mayor of Milwaukee on the socialist ticket and today is regarded as one of the leading socialists of the United States.

The chairman holds the watch and gives each debater thirty minutes, then fifteen minutes each, and then five minutes in conclusion, making one of the best and most educational afternoon entertainments that it is possible to produce.

CHINESE EDITOR COMING.

NG POON CHEW

Mr. Ng Poon Chew, editor of the Chinese American daily paper of San Francisco, who will lecture at the Nodaway County Chautauqua this summer, recently said, speaking before the City club of Chicago:

"The opium question is a very, very serious one. It is just like the whisky question in this country, except that in China we have the will to abolish the opium, but by the reason of limitations by other foreign countries, we have not the power; whereas in America you have the power to abolish the whisky, but you do not have the will. There is also this difference between opium and whisky. Whisky arouses a man's animal instincts and makes him an unreasonable brute; opium deadens his sensibilities and lessens his vitality and transforms him into a living corpse. An American whisky drinker goes home and kicks his wife, and an opium fiend goes home and his wife kicks him. I wonder if that is the reason that the great American people prefer whisky to opium?"

The Mule.

The mule he is a funny sight,
He's made of ears and dynamite,
His heels is full of bricks and springs,
Tornadoes, battering rams and things.
He's fat as any poisoned pup;
It's just his meanness swells him up;
He's always scheming round to do
Things you most don't want him to.

The mule he lives on anything;
He's got a lovely voice, to sing,
And when he lets it loose at noon,
It sounds like buzz saw out of tune.
He stands around with sleepy eye
And looks as if he'd like to die,
And when there's any dying done
It ain't the mule, I'll bet a bun.

Some folks don't treat mules with respect,
They say they ain't got no intellect;
That may be so, but if you've got
To go to heaven on the spot,
And want a way that doesn't fail,
Just pull the tassel on his tail.
The mule he tends to his own biz;
He don't look loaded, but he is.

MARYVILLE GIVEN BOUQUETS.

Kansas Crowd Lavish in Praise of the City.

When a bunch of Kansas friends came to Maryville last Saturday to assist Mr. H. L. Haines in the opening of the new Main street store they became acquainted for the first time with Maryville and her folks, and the Sabathia (Kan.) Herald of June 11 has the following to say of the Sabathia crowd's opinion of us:

Mr. and Mrs. Charlie Haines and Misses Marie Whitehead and Ruth Pitman drove to Maryville, Mo., Friday in the Haines car. They went over to assist Harve Haines in opening his new store in that town. Sunday they all came back more than enthusiastic over Maryville and the Haines store in that place. Maryville is a city of 6,500 people, in a very wealthy community. It is a modern city in every respect and is peopled with a most friendly and enterprising class of citizens. Harve Haines hunted all over Missouri, Iowa, Kansas and Nebraska for a location and Maryville appealed to him as no other town has.

700 SEE COBURN PLAYERS.

Their Performances at North Dakota Normal Drew Large Crowds and Won Much Praise.

The Coburn Players, who will give three performances in the outdoor theater at the Normal Monday and Tuesday, June 15 and 16, played at the North Dakota normal, at Valley City, the early part of this month. The Valley City Evening Times gives the following criticism of their performance of Shakespeare's "Merchant of Venice," the play which the Coburns will give here Monday evening, June 15:

For fully two hours an audience of some 700 persons last night sat in the sylvan theater on the normal school campus under cover of the stars and in the moonlight witnessed a most excellent performance of Shakespeare's "Merchant of Venice" by the Coburn Players. Three powerful calcium lights emphasized the features of the players amongst the shrubbery on the large stage and left the audience in the shadow to wander from Venice to Belmont and chuckle incessantly at the fine humor that penetrated the entire performance. Throughout the performance the audience sat as if spellbound studying each scene as it was unfolded rapidly, yet effectively.

The whole story of Shakespeare's comedy was last night refreshed by this company of finished actors. True to their own statement, there is no star among them brighter than the others, for in fact they are all stars.

That the coming of the Coburn Players marks one of the finest events from an educational standpoint as well as from that of entertainment that has come to Valley City in a long time is the consensus of opinion of everyone who has seen their performances.

BROTHERHOOD MEETING LAYERS.

Men of Christian Church Pay Ball, Cook Their Own Supper and Make Interesting Talks.

The members of the Christian Church Brotherhood made a big event out of their weenie roast at the Normal park yesterday evening. Forty members went out at 6 o'clock and kept themselves busy at amusements and serious affairs until 9 o'clock.

The first scheduled event was a base ball game between Byron Frost's team and Edward Gray's team. George L. Willey made himself famous as an umpire. He would know no back talk from the players, and in the third inning he was overheard to remark that he would call everything a ball, so Gray, whose team was leading with a 9 to 4 score, called in his men and refused to play. The game was then forfeited to the other team, but later in the evening Captain Gray and his men persuaded the umpire to annul the forfeit and give them the game with the 9 to 4 score. The Frost team is still working to get the result changed once more.

After the ball game food was the next thought of the men. They built a fire, roasted weenies, broiled steaks on sharpened sticks, made coffee, and appeased their appetites.

The regular brotherhood meeting was then held. The Rev. Mr. Finch talked on "The Carpenter of Galilee," which speech was followed by comments from George L. Willey and Henry Westfall. Ellis G. Cook spoke next on the subject of "Sunday Base Ball and the Wednesday Half Holiday." His talk was commented on by J. D. Frank, W. W. Glass, George L. Willey and Z. R. Alexander.

A committee of which Mr. Willey is chairman was then appointed to look into the matter of the Wednesday half holiday.

At 9 o'clock they returned to town in cars.

DISTRICT ENDORSES BOOHER.

Candidacy of Congressman Is Uncontested by Either Republicans or Democrats.

Well may Congressman Charles F. Booher of this district feel proud and gratified over the splendid endorsement given him by the Democrats of his district. It is such an endorsement that comes to few men in a Missouri district, and is therefore all the more appreciated and valued.

The last date for filing for the nomination for congress in this district was midnight, June 5th. No Democrat in the district filed against him and for that matter no Republican, although the committee may draft a candidate if it sees fit. The Progressives filed a candidate and so did the Prohibitionists.

So well has Congressman Booher served the people of the Fourth district—so well has he represented them—so successfully has he been—that the Democracy of the great counties of Atchison, Andrew, Buchanan, Holt, Nodaway and Platte, which comprise his district accorded him the distinguished honor of a return to his post of duty for the fifth time without a contest on his part—St. Joseph Observer.

M. N. G. ENCAMPMENT IN JULY.

Adj. Gen. O'Meara Changes Former Decision Because of Harm to Organization.

Adj. Gen. O'Meara, after a consultation with Gen. Harvey Clark, commander of the National Guard of Missouri, has decided to hold the annual encampment despite the railroad companies' refusal to grant the decreased car fare. Not to hold the encampment would work more harm to the organization than the quarrel over the car fare is worth, he believes.

Unless something interferes the encampment will be held some time in July.

Wednesday evening the Athletics will meet Captain Richards' Giants. No admission is charged at the gate and the public is invited to all of the games.

"Why Go to Church?"

1. To thank and worship God.
2. To honor and obey Jesus Christ.
3. To do in remembrance of me.
4. To obey Apostolic injunction "Forsaking not the assembling of yourselves together."
5. To follow early examples. "They continued steadily in the Apostles' teaching, in the fellowship in the breaking of bread and in prayers."
6. To help build up the church. By our moral support.
7. To show, by our example, to others our estimate of the church.
8. To maintain our interest in religion. Soon lost by non-attendance.
9. To feed our souls. "Man shall not live by bread alone." Many are starving their souls and don't know what is the matter.
10. To maintain an intelligent interest in the ongoing of the Kingdom of God.
11. To receive the best help in rich living.
12. To make the church a strong power for good in the community.
13. To be helpful and loyal to the pastor and uphold his hands.
14. To receive the blessings of communion with the highest things in the universe of God. Here is communion with God; with Jesus Christ and with the Holy Spirit—if we are in the spirit on the Lord's day. Here we give the sunshine of heaven a chance to shine into our souls. Here are truth, righteousness and the peace of God, I lose all these by staying away.
15. In the church is the best possible opportunity to help others.
16. The church is the bride of Jesus and any treatment extended the church He counts as extended to Him—no man can rightly love Jesus and neglect His church.
17. If you would have God for your father you must also have the church for your mother.—Exchange.

Getting Together.

Here is another sample of the way in which the g. o. p. and the b. m. are getting together:
"James Watson of Indiana came to Missouri the other day," says Henry Allen, "to attend the state convention of the Missouri Republicans. He 'opened the door' to all Progressives to come back into the Republican party and went away leaving it open. Mr. Watson also had charge of the door-keeping arrangement at Chicago. He's about the bunniest doorkeeper the Republican party ever had. While he had charge of the door at Chicago more than four million Republicans walked out of it."

Mrs. John Cook of Guilford spent the day Friday visiting friends in Maryville.

FIRST PROTOCOL IS SIGNED

Agreement as to Transfer of
Authority Reduced to Writing.

NO MENTION OF DICTATOR.

Omission of Reference to Method of Succession Regarded as Victory For American Diplomats—Naming of Provisional President Is Next.

Niagara Falls, Ont., June 13.—The first protocol of the series through which it is hoped to restore peace in Mexico was signed by delegates from the United States and the Huerta government in the presence of the mediators.

The agreement reached in relation to the manner of transferring the executive power from Huerta to the new provisional government stood the acid test of reduction to writing. It provides that:

"A government is to be constituted in Mexico of a character to be later provided, which shall be recognized by the United States on (date to be fixed) and which from that day forward shall exercise public functions until there shall be inaugurated a constitutional president."

Significant of Two Things.
This plank in the peace plan was reduced to the form of a protocol after more than three weeks of discussion. In the last three days of which so serious a disagreement had arisen that the success of mediation was threatened. The brief protocol was significant of two things:

It makes no mention of General Huerta as the provisional president and it omits the methods of transfer which the Mexican delegates and mediators suggested and to which the United States objected on the ground that its retention would be tantamount to recognition of the existing regime. The Mexican plan provided that Huerta should name as minister of foreign affairs the man agreed upon here for provisional president.

United States in the Clear.
The omission of reference to the method of succession and the flat statement that on a certain date a provisional government shall arise in Mexico to which the United States will accord recognition satisfied the insistence of the American delegates that no steps should be taken that could be construed as a recognition of Huerta. The Mexican delegates, while abandoning the constitutional form of succession as part of the protocol, are satisfied because it does not deny Huerta's right to name as minister of foreign affairs the man chosen here for provisional president. If the latter sees fit to accept designation from him. It is not considered probable, however, that the new provisional president, who is likely to be a Constitutionalist, would take the executive power directly from Huerta, but he might do so from some other individual whom Huerta might leave in authority.

Method Closed Incident.
The American delegates consider the method of transfer a closed incident. All parties are now concentrating on the second part of the peace plan, which relates to the naming of the provisional president, and possibly will include his cabinet of four. The protocol is the embodiment of that for which the United States has been striving for more than a year—elimination of Huerta.

Constitutionalists were not parties to the protocol, but there is nothing in it to which they are likely to object, and, if admitted to the conference, they may still attach their signatures. The question of Constitutionalist representation, however, is still an open one. The mediators say they will not officially admit the Carranza delegates unless they agree to an armistice. It is not doubted that the American delegates may try to secure a hearing for the Constitutionalist and that some way may be found for them to participate in the peace parleys after they have arrived.

MAY STORM KEY TO CAPITAL

Rebels Eye Tierra Blanca; Would Cut Off Huerta's Escape.

Vera Cruz, June 13.—Incoming Mexicans report that rebels are planning an assault on Tierra Blanca, a small city between Cordoba and Puebla. It is poorly defended and will fall an easy prey.

If Tierra Blanca falls communication between Mexico City and the Isthmus of Tehuantepec with Puerto Mexico on the east and Salinas Cruz on the Pacific will be halted. These are the only routes by which President Huerta can reach the coast now without coming into the American lines or passing through a country dominated by the rebels.

West Point, N. Y., June 13.—Secretary Garrison, in referring to the Mexican situation in an address to the graduating class of the United States military academy, praised the conduct of the army at Vera Cruz.

ASK IMPEACHMENT OF JUDGE DAYTON

Charges Presented In House by
Neely of West Virginia.

Washington, June 13.—Impeachment charges were presented in the house against Alston G. Dayton, United States district judge for the Northern district of West Virginia, and without objection were referred to the judiciary committee for investigation. Representative Neely of West Virginia presented the charges, accusing the jurist of "high crimes and misdemeanors."

The case grows out of the labor troubles in West Virginia. One of the allegations is that Judge Dayton used his office to the advantage of the coal operators. Mr. Neely charged the jurist had "openly stated that he would not permit the United Mine Workers of America to exist within his court's jurisdiction."

MOKE RIOTING IN ITALY

Strikers Burn Wooden Bridge Across the Rubicon.

Rome, June 13.—Movements of a revolutionary character were reported throughout the four provinces of Bologna, Ferrara, Ravenna and Forlì, forming what is known as the Romagna.

Although a cessation of the general strike has been ordered by the labor organizations, the workmen of extreme views in these districts have refused to return to work. The government ordered a concentration of troops, especially in the towns of Forlì and Ravenna.

The only communication from Ravenna reports the death of the chief of police as a result of wounds received in the course of a demonstration.

Serious encounters between the strikers and troops are reported from Parma. The wooden bridge across the Rubicon, now known as the Pisciatello, was burned by strikers and railroad communication cut.

Washington, June 13.—Thomas B. Jones, a Chicago lawyer, former member of the Princeton university trustees, and a personal friend of President Wilson, has practically been selected for governor of the federal reserve board. It was said unofficially that his nomination would go to the senate Monday. With the nomination of Mr. Jones, the names of Paul M. Warburg of New York, W. P. G. Harding of Birmingham, Ala.; A. C. Miller of San Francisco and E. C. Simmons of St. Louis, to be members of the board, are expected to go to the senate. Secretary McAdoo and Comptroller Williams of the currency bureau will be ex officio members.

Deafness Cannot Be Cured

Local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; since cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

**BALLOON STRUCK
BY LIGHTNING****Carrier Pigeon Reaches Portland
With Message of Disaster.****BERRY IS SERIOUSLY INJURED**

George Y. Morrison, Passenger in Million Population Club Bag, Signs Note Announcing Plight Caused by Storm. Where Descent Made Untold.

Portland, Ore., June 13.—A carrier pigeon arrived here with this message from the balloon Million Population Club:

"Balloon struck by lightning. Berry hurt. Come quick. MORRISON." The message did not say where the balloon had descended to earth. The Berry referred to is Captain John Berry of St. Louis, who was piloting the balloon. George Y. Morrison, his passenger, signed the message.

Officials are absolutely at sea as to where to look for the wrecked balloon and its injured pilot. It is presumed the balloon came down somewhere in the craggy Cascade mountains, probably many miles from a habitation.

Lack of information regarding the whereabouts of the Kansas City III, and Springfield, which left Portland in a race under the auspices of the Aero Club of America, has caused some apprehension for their safety. The fact that the Uncle Sam was driven to earth in a storm, which wrecked it and endangered the lives of its two occupants, led to a fear that the others may have met with disasters.

TURKS ATTACK AIVALIK

Massacre of Greek Inhabitants Is Feared.

London, June 13.—An official dispatch from Hittelen, an island off the coast of Asia Minor, says that Turkish regulars with machine guns and a force of Bashi-Bazouks commenced an attack on the town of Aivalik, on the coast of the mainland. As the town is inhabited by 25,000 Greeks, a massacre is feared.

The threat of another Greco-Turkish war did not come as a surprise to diplomats here. It was pointed out that events in the near east during recent months had been kindling the strongest animosities between the two peoples.

Greece accuses Turkey of the wholesale expulsion, with great cruelties, of Greek Christians from the province of Thrace, while Turkey accuses Greece of oppressing former Turkish subjects in the region of Saloniki, which was taken by the Greeks in the recent Balkan war.

A conference between the Russian and Roumanian ministers has been planned to take place at Bucharest, Roumania, next week to endeavor to prevent the breaking out of war.

REPEAL BILL UP WILSON

Only His Signature Necessary Now to Rescind Exemption Clause.

Washington, June 13.—Only President Wilson's signature is necessary to repeal the clause of the Panama canal act exempting American coastwise shipping from tolls.

The long and bitter fight in congress ended when the house, after brief debate and without the formality of a conference, accepted by a vote of 216 to 71 the senate amendment specifically reserving all rights of the Hay-Pauncefote treaty or otherwise.

The president is expected to sign the measure Monday. It was just a little more than three months ago that he addressed the house and senate in joint session, urgently asking for the repeal of the exemption clause that the nation might keep its treaty obligations.

Wife Breaks Neck, Spouse Fatally Hurt
Lincoln, June 13.—While Mrs. Ralph T. Eland, wife of a salesman, was working in the basement of their home she slipped on the wet floor, fell and broke her neck, dying almost instantly. Neighbors found her and summoned her husband. He hurried to the basement, took hold of an electric light cord, with faulty insulation, and received a shock that doctors at the hospital to which he was taken say will result fatally.

**SUFFRAGE ISSUE IS
UP TO CLUBWOMEN****Federation Convention Likely to
Vote on Question.**

Chicago, June 13.—The General Federation of Women's clubs may vote today on the suffrage question.

There is little opposition to the adoption of a resolution approving the principle of equal suffrage, but the fight will come when an effort is made to have the federation adopt a resolution making the fight to obtain the ballot for women a part of the federation's propaganda.

The subject has hitherto died in committee because the constitution of the federation declares the subjects of religion and politics to be taboo. In the conferences of this convention, however, the great strides made by suffragists in recent years were recognized and it was agreed that enlightenment on the subject might come properly under the heading of education.

It is believed the resolutions committee will report in favor merely of the principle of equal suffrage and this, it is said, will throw the fight on to the floor, as there is a determined faction seeking to enlist the organization in an active campaign for the ballot.

Climbing Roses Beautify Grounds

Climbing roses are a valuable aid to the man who is interested in having his home in attractive surroundings. With a fine lawn, artistically massed shrubbery, and a wealth of vines climbing over the porch and roof, many a plain and unpretentious house has been transformed into a most attractive dwelling place. The U. S. department of Agriculture has a rose garden on its grounds and many experiments have been made in the treatment of the various kinds to secure the best results.

After the blooming season of climbing roses is over in June, the Department's landscape gardener advises that shoots should be pruned so as to throw the growth of the plant into the new wood that bore no flowers this year, for this is the part of the plant that will bear next year. When a trellis is low, 6 or 8 feet high, it is a good plan to cut off the shoots that have borne flowers this year clear to the ground.

Most people in following this advice may feel that they are ruining their bushes to cut them back so severely, but the young shoots that have started about the roots will surprise them by springing up with wonderful rapidity. Each bush will probably put forth several new shoots that will grow as long as those cut or one shoot will grow much longer. One shoot in a Washington garden last year grew 20 feet after the bush had been cut down in this manner.

In the case of a high trellis a different method must be followed. The renewal of wood must begin from a point higher up instead of from the root as the growth of a bush is not

enough to replace all its top on a high trellis if required to grow so far. Only so much of the old wood should be removed after the flowers have bloomed as will enable the new shoots from the end of the remaining portion of the stalk to replace the old growth. About 4 feet is a safe measure of the amount that may be taken off.

Those who have grown climbing roses as a screen on their porches, in

order to insure a fine bloom the coming year, will do well to follow the advice as given for the higher trellis. In other words, about four feet of the old stalks that have bloomed should be cut off immediately after the blossoms are withered. The foliage will recover within a very short period and continue to screen the porch and next year an abundant crop of blossoms will be assured.

DEBATE SOCIALISM

J. A. BEDE AND EMIL SEIDEL TO DISCUSS QUESTION.

PROMINENT OPPONENTS

Former Minnesota Congressman and Milwaukee's Socialist Mayor Continue to Add New Points.

The Bede-Seidel debate on the question, "Is Socialism Desirable for the United States?" which has been secured to furnish an afternoon's entertainment at the Nodaway County Chautauqua, is one of the best numbers appearing on the Chautauqua platform today.

J. Adam Bede, ex-congressman from Minnesota, and Emil Seidel, recently socialist mayor of Milwaukee, cannot be excelled, from the fact that their debate is seldom given twice alike.

Each day each debater is looking for new points or argument, and consequently something new is given at every appearance. Often the debate waxes warm, for each man is a staunch and life-long supporter of the beliefs which he expounds.

J. Adam Bede is one of the best speakers on the platform today. During the time that he occupied a seat in our national legislative halls he was known as "the humorist of the house," so witty were his sayings and so excellent his humor. Often in the midst of the ordinary work of congress, when there were many empty seats and a general listlessness, Bede would rise to speak. Immediately the empty seats would fill and the feeling turn to one of intense interest.

In presidential campaigns Bede has made speaking tour on which he has been given the biggest city dates by the Republican national committee.

Emil Seidel acquired his earnestness and conscientious spirit at the pattern maker's bench. He was born in Pennsylvania, but left with his parents for Milwaukee when 5 years old. At the age of 22 he went abroad to perfect himself in his trade of carving and designing. For six years he lived in Berlin, working by day and attending trade school at night. In 1884 he helped to organize the wood carvers. He later joined the Milwaukee Association of Pattern Makers. In 1892 his ballot was one of a total of two socialist votes in his precinct. In 1910 he was elected mayor of Milwaukee on the socialist ticket and today is regarded as one of the leading socialists of the United States.

The chairman holds the watch and gives each debater thirty minutes, then fifteen minutes each, and then five minutes in conclusion, making one of the best and most educational afternoon entertainments that it is possible to produce.

CHINESE EDITOR COMING.

NG POON CHEW

Mr. Ng Poon Chew, editor of the Chinese American daily paper of San Francisco, who will lecture at the Nodaway County Chautauqua this summer, recently said, speaking before the City club of Chicago:

"The opium question is a very, very serious one. It is just like the whisky question in this country, except that in China we have the will to abolish the opium, but by the reason of limitations by other foreign countries, we have not the power; whereas in America you have the power to abolish the whisky, but you do not have the will. There is also this difference between opium and whisky. Whisky arouses a man's animal instincts and makes him an unreasonable brute; opium deadens his sensibilities and lessens his vitality and transforms him into a living corpse. An American whisky drinker goes home and kicks his wife, and an opium fiend goes home and his wife kicks him. I wonder if that is the reason that the great American people prefer whisky to opium?"

The Mule.

The mule he is a funny sight,
He's made of ears and dynamite,
His heels is full of bricks and springs,
Tornadoes, battering rams and things,
He's fat as any poisoned pup;
It's just his meanness swells him up;
He's always scheming round to do
Things you most don't want him to.

The mule he lives on anything;
He's got a lovely voice, to sing,
And when he lets it loose at noon,
It sounds like buzz saw out of tune.
He stands around with sleepy eye
And looks as if he'd like to die,
And when there's any dying done
It ain't the mule, I'll bet a bun.
